

## Mine Site Supervisor

### S1 S2 S3

If you're working on a mine site and want to get ahead then undertake the nationally recognised training programme commonly referred to as Mine Site Supervisor or S1, S2 and S3.

This two day training programme covers the basics required to get you started in a Mine Site Supervisors position.

It is expected you will already have mine site or heavy industry experience.

### Employment information

On successful completion of this training program, learners will have acquired the skills and formal qualifications to enable them to undertake the role of and perform the duties and position requirements of a Mine Safety and Health Representative as detailed in the Coal Mining Safety & Health Act 1999.

With these safety skills under your belt you are in an advanced position when that sought after supervisory position is next advertised.

### General information about this course

This nationally recognised training program provides participants with three units from RII30109 Certificate III in Surface Extraction Operations or RII30209 Certificate III in Underground Coal Operations.

RIIRIS301A

APPLY RISK MANAGEMENT PROCESSES (Known as S1)

RIIOHS301A
